

Lifeline

The right dose at the right time

Take the guesswork out of taking your meds with the Personal Medication Dispenser

It's never been easier to manage your medications

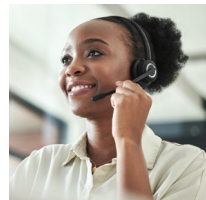

When it comes to your medications, following doctor's orders can be challenging. But with the Personal Medication Dispenser from Lifeline, it's never been easier to manage even the most complex regimens.

- ✔ Holds up to 60 doses for 40 days of medication up to 6 times per day
- ✔ Dispenses pills at the scheduled times as well as reminders for non-pill medications
- ✔ Audible alerts remind you when it's time to take your medication

Simple to use

You or your caregiver fill the individual cups with your medication, load the cups into the dispenser, and set a schedule.

24/7 continuous monitoring and proactive caregiver alerts when a dose is missed or dispenser needs refilling

What time do I take this?

Medications are automatically dispensed with reminder alerts to let you know when to take them.

Is this the right one?

Stop sorting and organizing your pills. Our medication dispenser holds up to 40 days worth of medications

Did I take my meds today?

Family and caregivers are notified when the dispenser needs refilling or when a dose is missed.
